

## IS INVISIBLE ALIGNER TREATMENT FOR ME?

### EASIER THAN EVER!

Many adults & teenagers are eager to achieve beautiful smiles without wearing braces.

**Virtualign** is an aligner system that corrects the minor imperfections you dislike.

Treatment is ideal for the front 4-6 teeth that are visible when you smile, even if you have previously completed orthodontic treatment.

## WHAT IS VIRTUALIGN?

An exciting new concept in adult orthodontic treatment developed for minor to intermediate correction of malocclusion.

A series of aligners are worn for 2 weeks at a time until your teeth have moved into the perfect position.

Each aligner is custom crafted to give you the smile you deserve.

### CONVENIENT

- **Virtually invisible** - No wires. No brackets. You can confidently work, exercise, and socialize while wearing your aligners.
- **Removable** - Because the aligners are removable, they allow you to eat, drink, brush and floss with complete freedom. Oral health is drastically improved!

### COMFORTABLE

- Minimal discomfort.
- There is minimal to no speech interference.
- The unique flexible clear material allows for gentle, consistent movement

Virtualign is great for correcting minor to moderate anterior crowding or spacing. It can also correct minor orthodontic relapse cases.
